2008 (7) DAY LAKE TREATMENT NOTICE

RESIDENTS ARE PLANNING TO HAVE THE WATERBODY OF LAKE ISABELLA CHEMICALLY TREATED FOR CONTROL OF LAKE WEEDS AND / OR ALGAE. This notice is being circulated at least 7 days in advance of the treatment in accordance with Michigan Department of Environmental Quality (MDEQ) requirements. This notice will only be sent once this season, however we may perform several applications. Each time that we treat your water body - we will post new signs. A permit for this treatment has either been secured or will be secured from the MDEQ before work is begun. You are receiving this notice if you are in the treatment area or adjacent to the treatment area. We will perform both algae control and weed control. When treating for weeds and algae, we are required to post the shoreline with brightly colored signs before these chemicals are applied to the lake. In some cases we treat both weeds and algae.

We treat each lake according to a schedule worked out with your association board. The plan is dependent on conditions like weather, water level, and water temperature. Please watch for the posting of your lake. We will be treating more than once this season. Posted signs will indicate chemical used and the water restrictions to your lake and the use of the same.

Only chemicals approved by the State of Michigan and the EPA will be used, and applied in amounts approved by the MDEQ. These chemicals, as applied, are not harmful to fish or wildlife. We anticipate using one or more of the products listed below. Please be aware of the restrictions on each.

CHEMICALS AND RESTRICTIONS:

REWARD: Do not use the water for swimming for (1) day. Do not use the water for watering lawns or gardens, animal watering (farm or gardens), animal watering (farm stock), or similar uses for (5) days.

AQUATHOL, AQUATHOL K, & HYDROTHOL 191: Do not use the treated water for swimming for (1) day. Do not use the water for household uses, irrigation (lawn or garden), animal watering (farm stock), or similar uses for (14) days.

AQUAKLEEN / NAVIGATE 2-4-D: Do not use the water for swimming for (1) day. Do not use the water for household uses, irrigation (lawn or gardens), animal watering (farm stock), or similar uses for 14 days.

COPPER SULPHATE, CUTRINE-PLUS, KOMEEN, NAUTIQUE: Do not use the water for swimming for (1) day.

AQUASTAR / AQUANEAT GLYPHOSATE : Do not use the water for swimming for (1) day.

RENOVATE / TRICLOPYR: Do not use the water for swimming for 1 day. No irrigation for (120) days.

ADJUVANTS, CYGNET PLUS, AGRIDEX, POLYAN: No restrictions.

If you have any questions please contact your lake association or we can be reached at the numbers above.

Sincerely,

Guy Savin - Savin Lake Services Inc. (formerly Rustin Lake & Pond Service Inc.)
